Care Wales

The **Greener Primary Care Wales Framework and Award Scheme** is a collection of actions to support community pharmacy, dental, optometry and general practice to improve the environmental sustainability of their day-to-day practice and to reach the Welsh Government decarbonisation targets.

The Framework has been developed in collaboration with a wide range of stakeholders and was formally [launched](#) by Eluned Morgan MS, Minister for HSS on 8th June 2022.

To register for free click [here](#)

Actions are clinical and non-clinical and cover categories such as procurement, waste, buildings and estates, disease prevention, and transport and smart working (these are aligned to the themes in the [NHS Wales Decarbonisation Strategic Delivery Plan](#)).

Practices can choose which actions they wish to work on to accumulate points. Depending on progress, practices will be awarded a 'working towards', bronze, silver or gold award.

Further information about the scheme can be accessed at [Primary Care One](#). Any comments or queries should be directed to greenerprimarycare@wales.nhs.uk.
