### OUT FOR COMMENT

#### **We need your knowledge about social prescribing and community connection!**

To address the confusion surrounding language associated with social prescribing, we are gathering insight from a variety of individuals to help develop an evidence-based glossary of terms.

This glossary can then be used as a reference guide by professionals across all sectors. We will be very grateful if you are able to take part in our research study. We have compiled a list of core terms associated with social prescribing and require you to sort and rate the terms online, via the link below.

For more information please contact :

### IN THE NEWS

---

The Public Health Wales led and SPPC reported **[Greener Primary Care Wales](#)** scheme was featured in the most recent national publication of **[Optometry Today](#)** (OT).

The article titled **[Sink or Swim](#)** dedicated a full 8 pages to climate change of which the majority featured the scheme itself. *OT* talks with eye care professionals in Wales about how the profession can work together to create a sustainable future.

Angharad Wooldridge, the lead for this work in the Primary Care Division, Public Health Wales contributed to the article together with three of the optometry practices enrolled early as pilot practices in the initiative earlier in the year.

The scheme is open for new registrations via the **[Primary Care One](#)** webpage.

---

### LOOK OUT FOR

---

#### ***Community Infrastructure toolkit coming in October!***

The Community Infrastructure (CI) Toolkit is a collection of information, and resources, designed for anyone (inclusive of profession, area, or level of practice) supporting the delivery of place-based care, regardless of setting.

#### ***Urgent Primary Care Centre toolkit coming in October!***

The toolkit is designed to share the learning at both a national and local level from the perspective of Clinicians and Operational Managers. Encourage collaboration to test and learn from each other providing through the deliver a 'Once for Wales' best practice approach through the sharing of good practice guides and documents and offer practical support and guidance in the continual improvement of Urgent Primary Care Centres.
