

# COMMUNITY INFRASTRUCTURE PROCESS PLAN

Enabling people to live well, at home through prevention, choice, well-being and independence.

## MULTI-PROFESSIONAL COLLABORATIVE WORKING OVERVIEW AND FOCUS AREAS

### KEY PRIORITIES:

- Multi-professional framework.
- “Virtual wards” and multi-professional reviews.
- Professional leadership collaboratives.
- Community nursing vision and framework
- Community nursing national specification.
- Care Homes immunisations model.
- Demand, capacity and modelling tools.

### NEXT STEPS FOCUS:

- Multi-professional team models and support to work with people to enable them to live well.
- Holistic long term condition reviews.
- Multi-professional workforce models for care homes: team around the person.
- Definition and measure of avoidable admission/attendance
- DN dataset and nursing workforce assumptions.

Supporting frameworks into practice.

Evidence based frameworks and underpinning quality statements to support multi-professional working. Evaluating and reviewing value and impact.

Proactive & preventative focus

Choice, well-being & independence

**2023...**  
Community Infrastructure Programme journey continues and successes celebrated

## EVALUATION & MONITORING THROUGHOUT

Action research embedding development matrix and core dataset into practice.

Development and utilisation of measures to demonstrate value and impact of multi-professional working.

Key stakeholder group, task and finish groups, professional collaborative workshops.

## LEARNING TOGETHER

Collaborative working from the start through stakeholder events and forums.

Building relationships between professions, organisations and communities.

Telehealth / Telecare, using population data

## COMMUNITIES & ORGANISATIONS WORKING TOGETHER

**FROM 2021...**  
ENABLERS AND ACTIVITIES TO ACHIEVE OUR AIMS AND FOCUS AREAS

Gathering and building on good practice across Wales. Focus on consistency, reducing variation.

Partnership with University of South Wales: multi-professional literature review and concept mapping.

Supporting development of and national sponsor for 'A Healthier Wales' Community-Based Care - Community of Practice (CoP)
