

# Strategic Programme for Primary Care

## Release note – Launch of Gwella Portals for Professional Collaboratives and Clusters

Release date: 28 September 2022

Author: Dorothy Edwards & Jessica Grainger

### Launch of Gwella Leadership Portals for Professional Collaboratives & Clusters

HEIW, working with the Strategic Programme for Primary Care, have developed a suite of resources to support new and existing leaders within primary care in their leadership journey.

So much of the work we do in the NHS in Wales involves change. Strong, effective and compassionate leadership is critical to the success of new ways of working to support the delivery of place-based care.

To support Accelerated Cluster Development, Gwella has been designed to host a range of leadership resources specifically curated to support both leaders of Professional Collaboratives and Clusters, as well as Cluster representatives who will be attending Pan Cluster Planning Groups (PCPG).

Each Professional Collaborative covering nursing, AHPs, General Practice, Dental, Optometry and Pharmacy has its own landing page and access to a closed (private) network that will support collaboration. By becoming a member of a network, you will be able to access core leadership resources and reference material as well as signposting to further leadership development. Networks will continue to be developed over the next 12 months alongside bespoke leadership development opportunities.

The site can be accessed [Professional Collaborative - Gwella HEIW Leadership Portal for Wales](#)

### Pharmacy and Leadership

Welcome to the Pharmacy Professional Collaborative and Cluster Lead Page

*This area is designed to create an understanding of how leadership forms an integral part of health care for our patients and how practicing compassionate leadership benefits patients and services in Wales.*
