

We are a practice...	Suggested Action
...with limited time 	A13 – support your professional body’s and/or the Welsh Government’s declaration of a climate emergency.
...on a budget 	A11, A12 – communicate with your team and patients about your involvement in the scheme and raise awareness of climate change.
...with lots of great ideas	A23, A24 – consider, test, and introduce a green innovation of your own. 
...wanting to know the impacts of our actions	A17 – identify how sustainable your practice is e.g., by measuring your baseline carbon footprint. 
...with an interest in improving our building(s)	A05, A06, A09 – replace lighting with more energy-efficient options, consider installing renewable energy production, or optimise your outside areas and green space for biodiversity. 
...wanting to complete an action which directly improves the health of our patients	GP01, GP02, GP03 – take action to promote green inhaler use. 
...wants to prepare for the impacts of climate change on our practice	A01, A03 – have a system in place to inform and alert patients about access to the practice and/or information about self-care in the event of extreme weather or disaster affecting the practice. 
...wanting to save the planet and save money 	A08, A29, A36 – monitor and reduce your energy usage, introduce a stock-taking system to ensure low wastage or, minimise the number of paper letters sent out.
...with a green-fingered member(s) of staff	A09 – optimise your outside areas and green space for biodiversity. 
...wanting to involve the local community and patients	A25 – involve and seek feedback from your local community on any changes to adopt a more environmentally sustainable practice. 
...who are new to the scheme and don’t know where to start!	A10, A12, A17, A15 – start by identifying a named lead and communicating your involvement to the practice team, identify how sustainable your practice currently is, and develop an environmental policy. 

Further information and signposting to resources to help with the actions above can be found within the online Framework. To register click [here](#).
